NOTICE

LAUNCH OF 'SRCC ASSIST' -Beta Version

Pleased to inform the formal launch of the beta version of the **SRCC Assist** – A web application designed to facilitate students in navigating SRCC.

The **SRCC Assist**, initially called *SRCC Finder* in the alpha testing phase, is a progressive web application developed intended to simplify academic and campus processes for students with the goal of helping students navigate through their college life in SRCC. The application combines timetable access, room discovery, faculty information, student networking, campus navigation and personal utilities into a unified platform.

Amongst other utilities, students can use this web application (both Android and iOS), to find:

1. Vacant Rooms in the College at a given period
2. Day-wise period wise list of class/tutorials/practicals to be attended
3. 3D virtual navigation between different areas in the College

The access to this application will be shared on a phased **roll-out basis** and students will receive the credentials to their account **via email**. Hence, it is advised to **be patient** and wait for email communication regarding credentials to this application.

The SRCC Assist application can be accessed here: [Student Assist SRCC - SRCC Finder](#)

It is **strongly recommended** to read the User Manual before accessing the SRCC Assist Application. The User Manual can be accessed here: [User Manual](#).

The web application has been envisioned, ideated, designed, and developed by **Mr. Keshav Singal**, Roll No. 24BC702, a student of B.Com.(Hons.) III Year, Shri Ram College of Commerce with enthusiastic support and guidance from SRCC.

The present Web Application is a **Beta Version** intended to be improved through user and community feedback. Students are encouraged to explore and use the application and enhance its functionalities for final rollout through a structured feedback mechanism intended to be released in due course. For queries or support, mail at: studentassistsrcc@gmail.com

Students with such interesting ideas in digital/AI space which may benefit the SRCC Community are **strongly encouraged** to directly reach out to me with a brief of their idea and proof of work at harish.kumar@srcc.du.ac.in
